WENDY PATON **PHOTOGRAMS LITERARY**

The most recent body of work by American photographer Wendy Paton combines bold abstraction and a centuries' old photographic medium; the Photogram, also known as camera-less photography.

In the series Photograms I Literary the artist uses a visual language that metamorphose a literal and literary object, the book, into an interpretation of abstraction.

Influenced by the iconic works of Man Ray and Laszlo Moholy-Nagy, photographer Wendy Paton makes a vivid statement in her series Photograms Literary, visually and figuratively, of the artistic photographic process and the subject matter she has chosen, the written word (literature) and how the two are presented today in our predominantly digital culture.

Photograms Literary debuted in January 2017 in Cologne, Germany in the exhibition Light, Shadow & Chemistry, Photography without a Camera at In Focus Galerie, and was featured at Art Karlsruhe in Germany, February 2017. The series was also exhibited at Artsource International, May 2018.

Works from this and other series of the artist are held in private and public collections in the U.S. and Europe, including the Still Art Collection, Russia Bibliothèque Nationale de France - SpallArt Collection, Austria - Lumiere Brothers Center of Photography, Moscow - The Michener Art Museum, U.S. and The Personal Collection of His Serene Highness Prince Albert II of Monaco.

WENDY PATON

BIOGRAPHY

Wendy Paton is an award winning American photographer, best known for her dramatic black and white candid, nocturnal portraits. Specializing in analog photography and printing in a traditional darkroom setting, she splits her creative life between her studio in Lambertville, New Jersey and Paris, France.

Paton's keen interest in photography began in 1981 while in the throes of a groundbreaking career training and driving Standardbred racehorses. She went on to study at the International Center of Photography in New York City, learning the intricacies of night photography from Michael Kenna and darkroom printing from her mentor and collaborator, master printer, Chuck Kelton.

In 2012 the launch of Paton's first monograph, *Visages de Nuit*, published by Kehrer Verlag, coincided with the solo museum exhibition, *Wendy Paton: Visages de Nuit*, in Moscow at the Lumiere Brothers Center for Photography. In 2014 *WENDY PATON | NUIT BLANCHE*, opened at The James A. Michener Art Museum in Doylestown, Pennsylvania. Her images have been published in international publications as well as exhibition and museum catalogs, and appeared on CNN and Russia Today television. The artist's exhibitions have been seen in galleries and museums throughout the U.S. and Europe.

Paton's photographs are included in the permanent collections of Still Art Collection, Russia, SpallArt Collection, Austria; Musée de la Photographie, Belgium; James A. Michener Art Museum, PA, U.S.; Lumiere Brothers Center for Photography, Moscow; International Center of Photography, New York; Bibliothèque Nationale de France and the Personal Collection of His Serene Highness Prince Albert II of Monaco as well as other notable private, international collections.

For detailed resume and exhibitions please see more information at the end of the catalogue.

PHOTOGRAMS LITERARY

Information about the artwork

Unique photograms

Artworks are unique, one of a kind, selenium toned gelatin silver photograms.

When applicable, all works are framed with archival materials in handmade splined wood frames with support strainer and Optium Museum Acrylic.

The gelatin silver prints are mounted with Japanese paper hinges on acid free mat board.

Please contact us for a full list of the available work. As these are unique pieces availability is not guaranteed.

Limited Edition Pigment Prints

For select artwork in the portfolio, the Artist issues a limited edition of the photograms as fine art archival pigment prints.

Currently, only #46 & #54 are available.

These images are printed on hot press, bright white, fine art paper.

Pigment prints are Editions of 5 plus 2 Artist Proofs.

#46 & #54 in this exhibition are both 1 in the Edition of 5,

Size: Image 35.5 W x 43.5 H; Frame 41.25 W X 49.25 H

Other Photograms of the series are available as commissions.

A presentation of Galerie l'Atelier

Galerie l'Atelier works with a selection of both established and emerging contemporary artists, with a main focus on photography. As artists ourselves, through our international travels for exhibitions, festivals and art fairs as well as with our involvement in the NY photographic community at the International Center of Photography NY, we have aligned with fellow artists around the globe and engaged peers with whom we feel a strong connection via their work, subjects and approach.

Galerie l'Atelier provides an active working platform for artists and a genuine opportunity to showcase their work in prestigious locations, affording them access to a select clientele from art fairs, private and public events, corporate clients, interior designers, art consultants as well as private collectors. At Galerie l'Atelier, connoisseurs and collectors are shown a broad selection of exciting artists allowing them to discover new talents.

Galerie l'Atelier aims to support and encourage the creation and development of the artists through the promotion of the work in fairs, institutions and private clients from the proceeds of the artwork sales.

We are drawn to work and artists for whom the physical relationship to the medium is central to the approach and we are passionate about the tangible and material aspect of the media itself. In addition to hand printed silver gelatin prints done in the darkroom, we have a selection of artists who use alternative printing methods such as chemigrams and palladium platinum artworks, as well as photograms where the relationship between the light and the paper is essential. We seek to represent the dynamic range of photographic creation today, from conceptual photography to the re-invented traditional approach.

One common thread that links all our artists is their relationship with primary elements. We look for connections with light, earth, minerals, air, water or heat. We represent work of the highest quality and look for artists with strong narrative of their personal vision in their photographs, either autobiographically as with Jehsong Baak's "one last goodbye" or by a study of their own social environment as we observe in Wendy Paton's "Visage de Nuit" or with the cosmologic research found in the work of Antonia Kuo. Founded by photographer, fine art printer and ICP member Nicolas Auvray, Galerie l'Atelier is based in New York.

SOLO EXHIBITIONS
